

Sailing trip Croatia or Greece

Sailing with your employees at an unforgettable conference is one of the best ways to strengthen the community at the company. A conference sailing in Greece or Croatia places great demands on cooperation, communication and trust, something that is becoming increasingly important in today's business world.

Mediterranean warmth and crystal clear water combined with a rich cultural life and breathtaking scenery make Croatia an obvious holiday choice!

Croatia's long coast towards the Adriatic Sea stretches almost 60 miles. The fantastic coastline has crystal clear, azure waters that invite you to swim, snorkel and dive. The beaches are mostly beautiful pebble beaches and it is not difficult to find your own cove. The adorably beautiful archipelago has over 1000 small islands, which makes the sea ideal for a pleasant holiday trip.

The coastal climate is typical Mediterranean climate with long, dry and hot summers. A nice breeze provides much-needed coolness so that the heat becomes bearable. You can travel to Croatia all year round, but the best is of course the summer from June to September. In April/May and October the weather is usually good but it can be a bit chilly.

The pace is calm and the Croatians are genuinely nice and care about their tourists. Croatia is also a cheap country, compared to many other European countries!

Suggestions on approaches in Croatia
