

Cannes – France

CANNES - glamor & small town in perfect combination!

A trip to Cannes on the French Riviera offers a successful combination of luxury, glamour, charming small town and exclusive seaside resort.

Every year, the city's film festival attracts the entire world's celebrity elite to travel to Cannes. Exclusivity also characterizes the city during the rest of the year, not least along the palm-lined promenade La Croisette, where the luxury hotels and brand stores lie side by side. At the same time, Cannes has managed to preserve a sense of small-town charm.

A few steps from the hectic nightlife in the center you will find the tranquility of the medieval district of Le Suquet and down by the harbor the luxury yachts sit side by side with the local fishing boats. The contrasts, or rather the ability to combine both of these worlds, make you as a visitor feel welcome in Cannes. The long and wide sandy beaches are another reason to enjoy yourself. If it's sun and water you're after, Cannes won't disappoint.
